 February 2021 Progress Report**

Dear Ms. Weaver:

In accordance with Condition E.13 of its Ohio Hazardous Waste Facility Installation and Operation Permit (the "Permit"), Envirosafe Services of Ohio, Inc. ("ESOI") hereby submits this progress report to the Ohio Environmental Protection Agency ("Ohio EPA") for the period beginning February 1, 2021 and ending February 28, 2021.

Corrective Measures Implementation ("CMI"):

Project Activities:

During this reporting period, CMI activities included the following:

1. AOC 3: Moving of operational equipment and supplies from AOC 3 (Building C) – to newly constructed replacement building;
2. Preparation of the annual reporting information required by the OMPM Plan for leachate collection systems at SWMUs 5, 6, and 7 and submitted with the Annual Report of Groundwater Quality;
3. Preparation of a basis for permit modification options regarding Ohio EPA's recommendations for winter weather shutdown of the leachate systems for SWMUs 5, 6, and 7.

Summary of All CMI-Related Contacts with the Public:

ESOI has not had any related contacts with the public during this reporting period.

Summary of Potential or Encountered Problems and Rectification Actions:

There is nothing to report in association with this topic for this reporting period.

Projected Work:

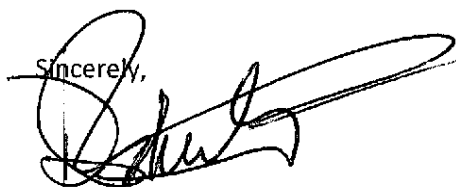

During the next reporting period it is anticipated that the following activities will occur:

1. Submission of the annual reporting information required by the OMPM Plan for leachate collection systems at SWMUs 5, 6, and 7 and submitted with the Annual Report of Groundwater Quality on March 1, 2021;
2. Collection of SWMU leachate levels, weather conditions permitting;
3. Resumption of operation and maintenance of the leachate extraction systems on SWMUs 5, 6, and 7 on March 4, 2021 as anticipated temperatures are expected to be routinely above 32 degrees Fahrenheit and wells accessible for maintenance.
4. Discussion with Ohio EPA and submission of draft permit modification options regarding Ohio EPA's recommendations for winter weather shutdown of the leachate systems for SWMUs 5, 6, and 7;
5. Incorporate Ohio EPA's recommendations to the SWMU 5 LNAPL Recovery System O&M Plan;
6. Moving of operational equipment and supplies from AOC 3 (Building C) – to newly constructed replacement building;
7. Continued redevelopment of leachate extraction wells in accordance with priority list, with the siltiest wells being addressed first as time and weather allows; and
8. Continued operation and maintenance of the leachate extraction systems on SWMUs 5, 6, and 7.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
